Run Description

Health New Zealand Te Whatu Ora

services, through a
ongenital and
cation

Section 1: Registrar's Responsibilities

Area	Responsibilities		
General	• Work closely with the team's House Officer, provide supervision and share responsibilities where and when appropriate.		
	• Manage the assessment and admission of acute and elective patients under the care of his/her team. Undertake clinical responsibilities as directed by the Consultant, also organise relevant investigations, ensure the results are followed up, sighted and electronically signed;		
	• Responsible for patient referrals and day to day ward management of patients under their team's care, in consultation with others involved in the care of the patient where appropriate;		
	• Work closely with paediatric cardiologists in provision of assessment and investigations of new patients and follow-ups in outpatient clinics and day case reviews.		
	Undertake diagnostic and treatment procedures appropriate to the subspecialty		
	 Maintain a high standard of communication with patients, patients' families and staff and referring practitioners, including prompt discharge and clinic letters and cardiosurgical summaries 		
	• Inform consultants of the status of patients especially if there is an unexpected event;		
	• Attend hand-over, team and departmental meetings as required.		
Admitting	Assess and admit Paediatric Cardiology and cardiac surgical patients referred to PCCS from the		

Area	Responsibilities
	community, from PICU or other departments with ADHB or other hospitals.
Ward Review	Paediatric Cardiology Referrals from other departments
On-Call	• After hours duties include a 1 in 3 roster for weekends from 0800-1700 on ward 23B and sharing in ward coverage between 1700 and 1900 in the evening when working a long day.
Inpatients	• When allocated ward duties (one in three) within the service undertake regular examination management of, and updating of management plan of admitted patients for whom PCCS is responsible;
	• Ensure diagnostic / therapeutic procedures are duly booked and follow through with the results
	• Ensure relevant documents, e.g. discharge summary, medication card and follow-up appointments are given to patient on discharge as necessary.
	• Ensure out of regular hours plans for patients management are documented in the notes, particularly at weekends.
	• Inform the on-call medical staff about patients whose condition requires monitoring and review overnight or at weekends.
Outpatients	• Assess and manage patients referred to outpatient clinics and days stay assessment in collaboration with the supervising consultant.
	Arrange outpatient investigations if necessary, and supervise exercise tests when required
	Communicate with referring person following patient attendance at clinics
Administration	• Maintain a satisfactory standard of documentation in the files of patients. All prescriptions and notes are to be signed, with a printed name and locator number legibly recorded;
	Be responsible for certifying death and complete appropriate documentation;
	• At the direction of the Clinical Director, assist with operational research in order to enhance the performance of the Service;
	• Dictate discharge summaries on patients that are discharged by their team and letters to General Practitioners following outpatient visits in a timely fashion;
	• Obtain informed consent for procedures within the framework of the Medical Council guidelines which state:
	1. "The practitioner who is providing treatment is responsible for obtaining informed consent beforehand for their patient. The Medical Council believes that the responsibility for obtaining consent always lies with the consultant – as the one performing the procedure, they must ensure the necessary information is communicated and discussed."
	 2. "Council believes that obtaining informed consent is a skill best learned by the house surgeon observing consultants and experienced registrars in the clinical setting. Probationers should not take informed consent where they do not feel competent to do so. (Consent for most catheter and surgical procedures are obtained by a consultant or a specifically designated fellow).
